Course Details

About Us

Our course manager is Peter Kosmider-Jones. He is a British native speaker and has worked as a healthcare professional for 15 years in a variety of clinical specialities, both in the UK and in Europe. He is also a qualified CELTA teacher and has experience teaching general, business and medical English. Peter draws on this professional experience to deliver unique courses using a wide range of teaching methods and techniques.

Courses for Healthcare Professionals & Students

RME Courses are designed for the following healthcare specialities:

- † Doctors & Medical Students
- † Nurses (Qualified & Student)
- † Midwives (Qualified & Student)
- † Pharmacists (Qualified & Student)
- † Dentists (Qualified & Student)
- † Physiotherapists (Qualified & Student)

RME Course Aim

All RME courses aim to improve your:

- † Speaking & listening skills; to achieve the highest quality of communication with English speaking patients and colleagues.
- † Reading & writing skills. Become confident and familiar dealing with all medical documents, articles, journals, referral letters, research papers etc.
- † Medical English vocabulary.
- † Medical English pronunciation.

Courses

RME offers the following courses:

- † Classroom Courses
- † On-line Courses
- † UBELT/IELT & OET Test Preparation
- † Healthcare Interview Preparation
- † Crash Courses
- † Conversation Classes

RME Classroom Courses

Classroom courses take place in Poznan, Poland. They are perfect for small groups (up to 8 students). Lessons take place in a relaxed, fun and professional atmosphere. A variety of teaching methods are used including the use of multi-media and the RME 'pseudo patient' technique. A 12 modular course makes up a minimum of 48 hours. This can be shortened or extended as required.

RME On-line Courses

This new and unique on-line course is perfect if you want to learn in the comfort of your own home anywhere in the world. Our on-line language courses are a very successful and convenient way of improving your language skills. The lessons can be one-to-one or for small groups. [Skype](#) is used in conjunction with a variety of on-line teaching resources and multi-media in order to provide a unique learning alternative. All language skills are targeted, as well as pronunciation, grammar and essential medical vocabulary.

UBELT/IELT & OET Test Preparation

These courses prepare you for the [UBELT](#), [IELT](#) or [OET](#) test. If you are planning to work in an English speaking country as a healthcare professional, then you may be required to take a pre-entry language proficiency test. Sample tests and other methods are used to fully prepare you for success.

Healthcare Interview Preparation

Perfect for healthcare professionals hoping to work in an English speaking country. The course will prepare you for an English speaking healthcare interview. You will be exposed to and become familiar with a range of commonly used interview questions. You will undergo mock interviews and support will be given regarding interview techniques and assertiveness.

Crash Courses

Perfect if you are going to work in an English speaking country, have limited time to learn or just want to refine your medical English language skills. You can choose what you need to learn from the 12 RME modules available.

Conversation Classes

These classes improve speaking fluency. You will become more confident speaking and listening in English on a wide range of healthcare, medical and general issues.

Modular Courses

The learning content of all courses is based on 12 clinical modules:

- 
1. Medical Terminology
 2. The Human Body
 3. Communication 1: History & Examination
 4. Communication 2: Observation & Investigation
 5. Communication 3: Patient Management
 6. The Healthcare System
 7. Surgery
 8. Health Promotion
 9. First-aid & Emergency Care
 10. Pharmacology
 11. Health Issues & Ethics
 12. Working Abroad

End of module tests are performed to monitor student progress.

Free RME Learning Resources

All RME students will receive completely unique [RME learning resources](#) throughout the course.

Student Requirements

Ideally students should be at upper-intermediate level or above. Students are required to demonstrate a keen desire to improve their medical English language skills and should be highly motivated. This will of course be encouraged and rewarded.

RME Course Prices

Prices reflect the current cost of high quality specialist language courses.
Discounts are given in the following circumstances:

- † Longer courses.
- † Larger groups.
- † All healthcare students.
